

Microbiology (B.S.) – Available at both Athens and Griffin campuses Revised 3.2.17

This is a sample schedule for a student who comes to UGA with no outside credit (AP, IB, Dual Enrollment, etc.), and has not exempted any requirements (Foreign Language, Math, etc.). This schedule is only an example of a possible 4-year plan which assumes that the student will not take any summer courses. It is not a guarantee of class availability, and it is subject to change. Students are expected to satisfy all Regents, University, Franklin College and Major Requirements in order to graduate. They must also have a minimum of 120-hours excluding the mandatory 1-hour P.E. credit, and 39 of those hours must come from Upper Division courses (3000+ level). This is only meant as a general guide, and you should consult with your Academic Advisor about your personal graduation plan.
